Your Medical Match

When you log on to the enrollment website to enroll, you'll have access to **Help Me Choose** (supported by Picwell®)—an enrollment experience designed to help you choose medical coverage that best fits you.

Get a head start gathering your answers now to make sure you get the most useful results possible. That way, you'll be prepared to get the most out of your enrollment experience.

## About You

You'll have the opportunity to add dependents to coverage, select which credits or surcharges apply to you, and choose your medical and financial needs and preferences.

You can prepare your covered dependents' information now. Dependents can only be added at certain times each year and will impact your cost. (**Note:** You'll also need to provide each dependent's Social Security number.)

## About Your Doctors

Your (and your family's) providers are important in determining your medical options. It's possible your current doctor(s) may not be included in every medical carrier's network. Knowing if your doctors are in-network will help identify the medical options that may be a better fit.

## About Your Prescriptions

Considering prescription drugs that you (and your family) take on a regular basis is important in accurately predicting your medical expenses. The information you provide will help to identify which medical option may best meet your needs. **Help Me Choose** can even show you the costs (if available) for your prescriptions under each medical option.

## Your Medical Match

Congratulations! You've done your homework. Once you answer these and other questions through **Help Me Choose**, you'll be able to review results and select your best medical match.

### Things to Consider

- **Upcoming needs:** Are you planning on having a baby or an elective procedure that may change your coverage needs next year?
- **Pay now or pay later:** Would you prefer to pay more out of your paycheck so you'll pay less when you get care? Or, would you prefer to pay less out of your paycheck and pay more when you need care?
- **In-network vs. out-of-network:** Would you consider changing your provider(s) if it meant you could have a lower paycheck deduction? Working with out-of-network providers costs more, so be sure to check the carrier networks on the enrollment website.
- **Transition of care:** If you or a family member is being treated for a medical condition and your current provider is not in the new carrier network, you may be able to temporarily continue care with your current provider for a period of time. For more information about transition of care, check with the carrier(s) you're considering.
